REGULATIONS & RELEASE FORM

Verification of vaccinations for RABIES is required: no dog may participate in any training class or be present on the business premises without such verification. The BORDETELLA vaccination guards your dog against the more severe, air-borne forms of Kennel Cough. In order for the vaccination to be in effect fully, your dog should have it a minimum of 72 hours prior to coming to class. Dogs most susceptible to kennel cough are young pups and older dogs, both groups that tend to have a weaker immune system. Remember that even though your dog is vaccinated, it may still contract one of the lesser life-threatening types, much like our common cold. We highly recommend that you protect your dog with this vaccination and others recommended by your veterinarian.

For Starters agility classes and higher, all dogs must be twelve (12) months of age or older and be under reasonable control of the owner. Off-leash recall control amidst distractions as well as prior obedience training is required; however, the possibility to test out of this requirement is available. Female dogs "in season" are prohibited from attending class. HOWEVER, handlers should attend classes without the dog during this time and continue to work with the dog at home.

The owner/handler of each dog is solely responsible for the behavior of the dog at all times and as such must be aware of what the dog is doing at all times. Any altercations (dog/dog or dog/person) resulting in any injury requiring veterinarian or physician attention and or costs, will be the sole responsibility of the owner/handler of the dog causing the altercation.

No person and/or dog enrolled in the any class(es) at Arrowhead Dog Training Academy will be allowed in the training arenas, or on the agility equipment whether indoors or out, at any time other than class time, without the expressed consent of the Instructor and/or owner(s) and will be doing so at their own risk. Attended open building hours will be available during each month to allow for practice either for obedience or agility. Dates and hours can be viewed on the calendar on the ADTA website.

If, while attending classes, a dog is deemed to be uncontrollable and/or aggressive as to create a general disturbance or pose a threat to any other class attendees (human or canine), it will be required to discontinue group sessions immediately. This decision will be made solely by the ADTA Instructor and/or Owner(s) who shall have total authority in the disciplining of an aggressive dog if he/she determines that another dog or person may be in jeopardy. The Instructor will also have complete authority in determining the extent to which he/she will permit an unruly dog and/or person to remain in class. If any dog is excused from the group sessions, the remainder of the class fee, less a \$5.00 processing fee, will be refunded OR the balance may be used toward an obedience class, behavioral consultation or private lessons.

Cancellation of class registration and application for refund can be made no later than the day before the first class day of the session listed on the front of this form. No refund of class fees will be made once the session begins except in instances as stated above or in the case of a medical dilemma prohibiting you or your dog from further attendance. This must be supported by a written statement from your physician or veterinarian.

In consideration of the acceptance of registration for class training, I hereby agree to hold the Arrowhead Dog Training Academy, its instructors holding classes, and all persons connected with or associated with said Academy, in whatever capacity, harmless from:

- 1) *Any loss or injury which may occur to any person and/or thing which may be caused directly or indirectly to any person and/or thing by any biting by or to, or any other act of the said dog or dogs while in or upon the premises or grounds, or in, at or near any entrances or exits thereto, whether or not and when the said dog or dogs is or are being delivered or removed or otherwise handled, and personally to assume full responsibility and liability therefore, and:*
- 2) *The disappearance and/or loss by theft or otherwise, and/or death of said dog named, and/or all injury or injuries, and/or damage or damages which may occur or be caused by the negligence or carelessness of said Academy, its members or any person(s) connected with the said Academy in any manner whatsoever, or by any other person(s) and/or by any other cause(s) directly or indirectly operating while such person(s) and/or dog(s) is/are on the training premises.*

I have read and understand this disclaimer and the regulations of the Arrowhead Dog Training Academy:

OBEDIENCE

PUPPY FOUNDATION

Research has proven that it is crucial that puppies receive proper socialization and training in their first six months if they are to mature into confident, well-rounded adults. Under-socialized pups may grow into fearful or aggressive dogs, depending upon their genetic tendencies and lack of direction. A young pup is fun to work with, learning readily; and our safe, kind and reliable methods give your puppy a head start in both manners and obedience. In our course you will learn the basic structure behind the canine hierarchy and how to use positive reinforcement to shape desired behaviors encompassing everything you need to know to raise a confident, well-mannered puppy.

10-Week Course \$100.00

BEGINNER SHAPING

Obedience trained dogs are more confident and well-mannered, with fewer behavioral problems than untrained dogs. Our group classes give you the opportunity to learn how to attain and maintain control of your dog amid distractions, many of which he or she will be experiencing in everyday life. They are designed to increase your awareness of how dogs learn, through communication of body language, tone of voice, and timing. This course will deepen your knowledge of the training process which will enable you to further your pet's education in order for it to become a more valuable asset to your family.

10-Week Course \$100.00

INTERMEDIATE SHAPING

These classes further develop your dog's education with a strong emphasis on building an enjoyable work ethic through the interspersion of work and play. They are designed to increase your dog's responses to your body language and voice commands, and create a willing partner. They use positive reinforcement and shaping to unlock your dog's ability to think and reason, which allows your dog to feel comfortable offering behaviors without being worried about possible consequences. These classes also provide a good foundation for competition dogs.

10-Week Course \$100.00

ADVANCED: COMPETITION FLOORWORK / ADVANCED EXERCISES / COMPETITION RING SKILLS

These classes advance your dog's education into the fascinating world of obedience competition. They address the exercises required for the different levels of obedience competition and help you to understand what being "in the ring" is all about. Obedience trials demonstrate the dog's ability to follow specified routines in the obedience ring and emphasize the usefulness of the canine as a companion to man. The first hour focuses on floor work, you and the dog; the second hour focuses on obedience articles/obstacles, jumps, dumbbell work, gloves, etc.; the third hour focuses on gaining comfort with ring ethics, do's and don'ts. All three classes are optional for those working on these competition levels at no additional session cost.

10-Week Course \$100.00

YEARLY CLIENT PAYMENT LEVEL

Any client wishing to pay on a yearly basis for their training needs may do so once their dog is working above the Intermediate level. This allows a client to enter a dog in any advanced level class(es) during the session as well as any additional lower level class(es) as long as the additional class(es) are not filled. Any additional dog(s) trained under this payment schedule can be added to the yearly rate but must conform to the same class limitation parameters.

Yearly Fee: \$300.00 per person
